OVERVIEW

A multi-passionate person who finds joy in learning and applying new experiences. The Frontends/UIs are one of these aspects I really love about programming where we start to gain the fruits of each technology we build. A brilliant technology with a poor UI is poor. This is why I love building the top-notch and high quality user interfaces.

EXPERIENCE

Tempo, SF, USA — *Frontend Engineer*

Feb 2022 - PRESENT

- Building a top-notch storefront with a seamless user experience.
- Implementing mobile-first designs for the marketing campaigns.
- Architecturing and maintaining very complicated quiz building system.
- Building the product purchasing flow.
- Building the user account and renewals app.
- Using NextJs, Typescript, CMS, and Shopify.

Halan, Giza, Egypt — *Fullstack Engineer*

Mar 2021 - Feb 2022

- Worked on a couple of microservices on AWS.
- Worked on an ecommerce system with MySQL, Golang.
- Built a CDC system for different databases.
- Built an error reporting/indexing library using Golang.
- Built a BFF for a couple of frontend applications I owned.
- Wrote different migration scripts between MySQL and MongoDB.

Halan, Giza, Egypt — *Frontend Engineer*

Mar 2018 - Mar 2021

- Worked on an internal admin tool which manages all the different services across Halan's business sectors.
- Built a real-time on-map drivers tracking system using socket.io and Google maps.
- Built a map segmentation app using ReactJS which is used to manage the accessibility of different services across Egypt, Sudan, and Ethiopia.
- Built a B2B delivery portal for restaurants to receive and dispatch delivery orders.
- Built multiple webview services that are injected inside the mobile app.

SKILLS

- Modern Javascript
- Advanced CSS
- Problem Solving
- Application Architecture
- Design Patterns
- Refactoring
- Technical R&D
- Results Oriented
- Websites Performance

TECHNOLOGIES

- **Javascript**
  - ESNext
  - NodeJS
  - Typescript

- **Frameworks**
  - ReactJS
  - AngularJS
  - VueJS
  - Svelte
  - NextJS
  - NuxtJS

- **CSS**
  - SASS
  - LESS
  - Tailwind
  - Bootstrap

- **Testing**
  - Unit Testing
  - Snapshot Testing
  - Jest
  - Chromatic

Freelancing, Remote — *Web Developer*

Oct 2017 - Mar 2018

- Transformed HTML pages into WordPress sites.
- Built a localization plugin for WordPress.
- Maintained different control panels for high accessibility.
- Built multiple WordPress sites for different SMEs.
- Communication with different stakeholders and requirement gathering and implementation.

CodeHouse, Sharqia, Egypt — *Web Developer*

Apr 2017 - Oct 2017

- Built different websites using HTML, CSS, and Javascript.
- Transforming PSDs and XDs into HTML.
- Built different mobile first web applications.

EDUCATION

Faculty of Commerce - Zagazig University, Sharqia

Statistics & Data Analytics

- Other
  - Webpack
  - Gulp
  - Github Actions
  - Gitlab CI/CD
  - Vercel
  - Netlify
  - Contentful
  - AWS
  - Error Reporting
  - Analytics
  - Micro-frontend
  - PWA

LANGUAGES

Arabic - Mother tongue
English - Very good communication
